

## HACK

### OBJECTIVE

To think about what you would like to learn and why

1

Scan the QR code to download the tool and print it out.

2

Note down your thoughts by adding keywords to the colored fields focusing on progress and requirements.

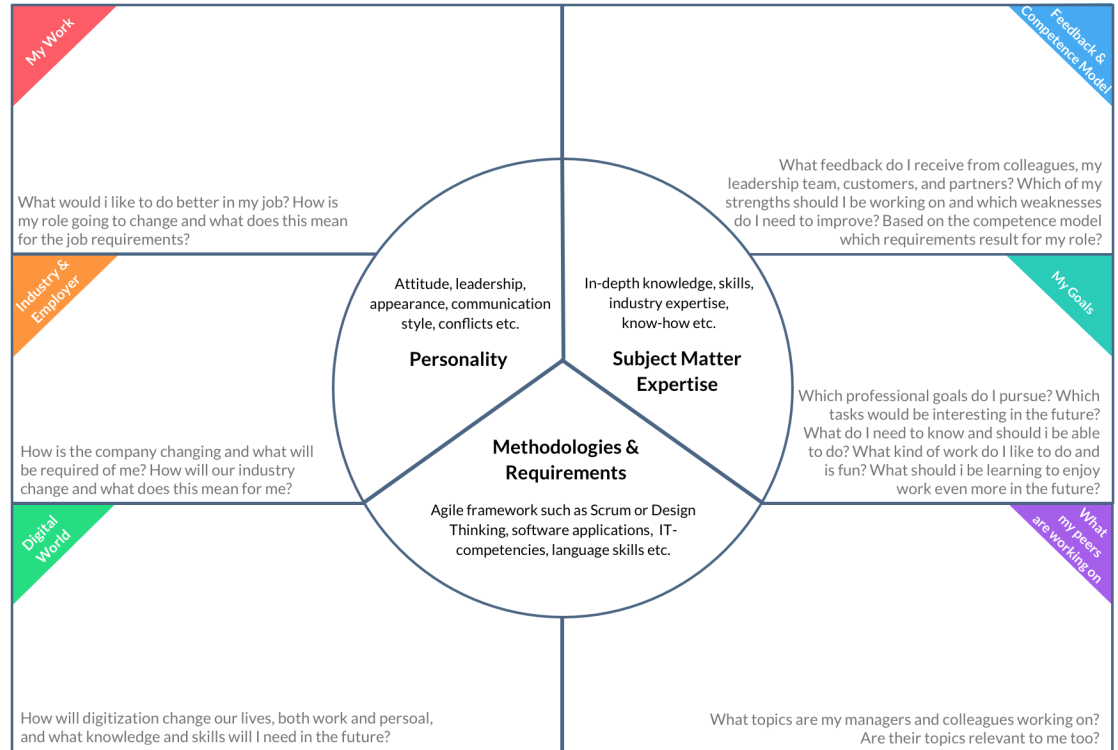

3

Use your keywords to specify your learning goals within the circle. Assign your learning goals to one of the three categories: personality, subject matter expertise as well as methods & requirements.

4

Review your learning goals on a regular basis, e.g. quarterly. Reflect on how your learning goals have changed and where you have made progress.
